

We need volunteers to fill all sorts of roles! We need to tutors of all abilities especially anyone who has struggled with learning disabilities themselves! We need tutors for English; basic and further, English as a Second Language, maths; basic and further, computers... you name it! We also need volunteers for other roles such as our Friendship Project where volunteers are matched with new arrivals to show them around and help them settle in to life here. We also need people to host conversation groups where people learning English can practice in an informal chatty environment. We also need volunteers for outreach in marginalised communities, such as the homeless or those with mental health problems and for fundraising and publicity! Come and say hi, we would love to meet you!
